Target version:	6.0.0		
Resolution:	Fixed		
Description			
It will be very hardy to have some short pop-up help near "Spent-time" box. It's hard to remember exact format of time.			

Associated revisions

Revision 22977 - 2024-08-21 10:40 - Go MAEDA

Add placeholder "h:mm" to hours field for better user guidance (#2464).

Patch by Go MAEDA (user:maeda).

Revision 23045 - 2024-09-09 09:50 - Go MAEDA

Fix display issue of "h:mm" placeholder in estimated hours input field by expanding its width (#2464, #41231).

Patch by Mizuki ISHIKAWA (user:ishikawa999).

+1 I agree, I get a lot of "bug" reports from people entering time incorrectly

#2 - 2016-09-13 17:12 - Benjamin Schunn

is this needed anymore? imho no.

- Target version set to Candidate for next major release

I would like to propose adding a placeholder of "h:mm" in the hours field to indicate the expected time format. While Redmine supports various time entry formats, "h:mm" is certainly the most common. Displaying this format as a placeholder could help users understand the expected input more easily and improve overall usability.

This can be implemented with the following change:

```
diff --git a/lib/redmine/views/labelled_form_builder.rb b/lib/redmine/views/labelled_form_builder.rb
index 8c97b8215..f364ca8e2 100644
--- a/lib/redmine/views/labelled_form_builder.rb
+++ b/lib/redmine/views/labelled_form_builder.rb
@@ -49,6 +49,7 @@ class Redmine::Views::LabelledFormBuilder < ActionView::Helpers::FormBuilder
   # display the value before type cast when the entered value is not valid
   if @object.errors[field].blank?
     options = options.merge(:value => format_hours(@object.send field))
+    .with_defaults(:placeholder => 'h:mm')
   end
   text_field field, options
```

end
