

Redmine - Patch #24692

Issue destroy : Reassign time issue autocomplete

2016-12-26 16:58 - Anonymous

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	3.4.0		
Description			
When deleting an issue, you get a form to propose you where to reassign the time entries. This patch provides an autocomplete instead of entering the raw issue ID.			
Patch tested and fully working for Redmine 3.3.1-devel

Thank you for submitting the patch.

Reassigning destination issue must be an issue within the same project (please see the code in IssuesController#destroy: [source:trunk/app/controllers/issues_controller.rb@15923#L354](#)). Therefore the auto completing should not suggest issues in other project.

I am not sure, but I think the key-value pair :scope => Setting.cross_project_subtasks in the arguments of escape_javascript auto_complete_issues_path should be removed.

#5 - 2016-12-30 06:40 - Go MAEDA

- File issue-destroy-reassign-time-autocomplete-v2.patch added
- Status changed from Needs feedback to New
- Target version set to Candidate for next major release
