Description

Hello,

Sometimes, we want to add the same private note to multiple issues. Unfortunately, when you bulk edit issues, the checkbox to set the note as private is not present.

It would be good if we could set the private flag when using the bulk edit mode to add a note to multiple issues.

Thank you

Damn it, I searched before I created the issue, but apparently not hard enough.
Sorry for the duplicate.

Pierre, nevermind the dup. It happens. There are a lot of issues to go through.

Wim, thanks for pointing it out...
