

Redmine - Defect #24907

Issue queries: "Default columns" option conflicts with "Show description"

2017-01-23 11:40 - Jens Krämer

Status:	Closed	Start date:	
Priority:	Normal	Due date:

Category:	Issues filter	Estimated time:	0.00 hour
Target version:	3.4.0	Affected version:	3.3.2
Resolution:	Fixed		
Description			
When editing an issue query, it is impossible to activate the <i>Show description</i> option while <i>Default columns</i> is selected. This is somewhat confusing. Probably <i>Show description</i> should be moved into the <i>Columns</i> fieldset which is toggled by the <i>Default columns</i> checkbox?

Revision 16304 - 2017-01-29 14:11 - Jean-Philippe Lang

Disable description and columns when checking "Default columns" (#24907).

History

#1 - 2017-01-23 11:42 - Jens Krämer

just to clarify: it is possible to select the *description* checkbox in the UI, but it's state isn't saved since the default columns option resets the query columns, removing the description column from the array of selected columns.

#2 - 2017-01-29 14:12 - Jean-Philippe Lang

- Status changed from *New* to *Closed*
- Assignee set to *Jean-Philippe Lang*
- Target version set to *3.4.0*
- Resolution set to *Fixed*

Description checkbox is now disabled when checking "Default columns", thanks for pointing this out.
