

Redmine - Feature #24976

Include new statuses allowed by workflow in Issues REST API

2017-02-02 10:32 - Stephan Möllgaard

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:	5.0.0		
Resolution:	Fixed		
Description			
Redmine API provide no possibility to get informations about workflows. This feature is important to get informations about next allowed status for issues.			
There a lot of posts from people which need this feature.			
Please plan to implement this enhancement for the Redmine API - thank you!

Revision 20951 - 2021-04-19 11:04 - Go MAEDA

Include new statuses allowed by workflow in Issues REST API (#24976).

Patch by Yuichi HARADA.

History

#2 - 2021-04-05 08:03 - Bernhard Rohloff

- Duplicated by Feature #35032: Get allowed Issue statuses by Issues API added

#3 - 2021-04-05 09:42 - Yuichi HARADA

- File status-list.png added

- File 24976.patch added

I would like to add value **allowed_statuses** to the include parameter.

```
GET /issues/[id].[format]?include=allowed_statuses
```

By specifying this, you can get the available statuses(same values with issue edit form) from the issue's current tracker, issue's current status, and member's role.

#4 - 2021-04-08 06:27 - Go MAEDA

- Target version set to Candidate for next major release

Currently, you cannot get the list of new statuses via the API, so many Redmine clients get the list by scraping the HTML of the edit issue page.

#5 - 2021-04-16 05:12 - Go MAEDA

- Subject changed from Redmine API: Support for Workflow to Include new statuses allowed by workflow in Issues REST API

- Target version changed from Candidate for next major release to 5.0.0

Setting the target version to 5.0.0.

#6 - 2021-04-19 11:04 - Go MAEDA

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Resolution set to Fixed

Committed the patch. Thank you for your contribution.
