<b>Description</b>			
<p>I just created new poject "ČATA", but it's listed at the end of the project list. It should be just after C: AÁBCČDDĎ...</p> <p>This should be implemented at least in Czech locale, but it will be very helpfull to have configurable language and sort-order independetely.</p> <p>For example: I always preffer to have application in English, but I'm using czech locale, ie. czech names of days, months, time format, sorting, etc.</p>			

#### History

IMHO it can be placed in /my/account just under Time zone, something like "Sort order":

- (Language default)
- Czech
- English
- ...
