Target version:				
Resolution:	Invalid			

Description

HELLO,
I found a window about the approval workflows in project settings, but I can't find the indication in help. Could you give me the link, thanks!
By the way, we need the function of approval workflow for project ECR/ECN and milestone review.

Leon

I thought this functionality was part of redmine's core, but it's not.

It's part of from **DMSF plugin**

The code is in **GitHub** and there's the **user guide**
