

Redmine - Defect #25197

duplicating groups with same project names (sub-project) in issues list

2017-02-25 21:13 - Alexander Protasov

Status:	New	Start date:																									
Priority:	Normal	Due date:																									
Assignee:		% Done:	0%																								
Category:	Issues list	Estimated time:	0.00 hour																								
Target version:		Affected version:	3.3.2																								
Resolution:																											
Description																											
<p>A have a bug with issue list and projects with the same name. On the demo.redmine.org you can see the projects and issues what can you demonstrate the bug.</p> <p>Steps to reproduce:</p> <ol style="list-style-type: none">1. Let's create three projects ABC, ABC2 and ABC again in ABC2 (sub-project);2. Let's create two issues for project ABC and "Start date" = 2017-02-25;3. Let's create one issue for project ABC and "Start date" = 2017-02-27;4. Let's create one issue for project ABC\ABC2 and "Start date" = 2017-02-26;5. Let's create one query with group by project name and sorted by "Start date" field;6. When we apply this query for the issues list – we can see three groups with ABC name, but there is must be only two of it! <p>Environment:</p> <table><tr><td>Redmine version</td><td>3.3.2.stable</td></tr><tr><td>Ruby version</td><td>2.1.10-p492 (2016-04-01) [x86_64-linux]</td></tr><tr><td>Rails version</td><td>4.2.7.1</td></tr><tr><td>Environment</td><td>production</td></tr><tr><td>Database adapter</td><td>Mysql2</td></tr></table> <p>SCM:</p> <table><tr><td>Subversion</td><td>1.9.5</td></tr><tr><td>Cvs</td><td>1.12.13</td></tr><tr><td>Git</td><td>2.7.4</td></tr></table> <p>Filesystem</p> <p>Redmine plugins:</p> <table><tr><td>redmine_checklists</td><td>3.1.5</td></tr><tr><td>redmine_default_assign</td><td>0.6</td></tr><tr><td>redmine_default_custom_query</td><td>1.2.0</td></tr><tr><td>sidebar_hide</td><td>0.0.8</td></tr></table>				Redmine version	3.3.2.stable	Ruby version	2.1.10-p492 (2016-04-01) [x86_64-linux]	Rails version	4.2.7.1	Environment	production	Database adapter	Mysql2	Subversion	1.9.5	Cvs	1.12.13	Git	2.7.4	redmine_checklists	3.1.5	redmine_default_assign	0.6	redmine_default_custom_query	1.2.0	sidebar_hide	0.0.8
Redmine version	3.3.2.stable																										
Ruby version	2.1.10-p492 (2016-04-01) [x86_64-linux]																										
Rails version	4.2.7.1																										
Environment	production																										
Database adapter	Mysql2																										
Subversion	1.9.5																										
Cvs	1.12.13																										
Git	2.7.4																										
redmine_checklists	3.1.5																										
redmine_default_assign	0.6																										
redmine_default_custom_query	1.2.0																										
sidebar_hide	0.0.8																										

History

#1 - 2017-02-25 21:17 - Alexander Protasov

Is there any possibility to write the full name of the project in the group name in issues list?

"ABC" for the first two issues and "ABC2 \ ABC" for the third issue?

#2 - 2017-03-26 05:48 - Toshi MARUYAMA

- Subject changed from duplicating groups with same project names in issues list to duplicating groups with same project names (sub-project) in issues list
