<b>Resolution:</b>	
<b>Description</b>	
<p>As a user new to redmine, it would help me very much to be reminded that "Roles" have to be associated to link users to projects.</p> <p>Maybe change the header in the Roles view to something like "Roles &lt;small&gt;assign permissions of users to projects&lt;/small&gt;", or under the heading: "Users can have different roles in different projects. Define permissions of a Role here." - you get the picture</p>
