

Redmine - Defect #25486

Repository history is not updating

2017-03-31 11:56 - Maxim Krušina

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	3.3.1
Resolution:			
Description			
<p>Hi, on just one project we have something wrong.</p> <p>When I go Git repo overview: https://ourredmine/projects/ourproject/repository I see al the changes (like file XY modified 2 hours ago etc.)</p> <p>When I click on revisions: https://ourredmine/projects/ourproject/repository/revisions i see last revision somewhere in 2016</p> <p>Also, when we push to repository something with comment referencing the ticket, it's not parsed and commit is not showing on the ticket's page.</p> <p>Other projects with git repos are working just great.</p> <p>Any clue? Thanx!</p>			

History

#1 - 2017-03-31 14:14 - Toshi MARUYAMA

- Category set to SCM

#2 - 2017-05-30 14:06 - [Desperados]

similar problem, but my entire repository is stopped from 2 months (both repository and revisions)

this issue has happened many times to me, everytime I delete repository and recreate, redmine works for a long time (even a couple of hours) and rebuild it

then, it works for a while (a couple of months) and then hangs again

#3 - 2017-05-30 14:12 - Toshi MARUYAMA

- Status changed from New to Needs feedback

Please describe your environment to see [[submissions]].

#4 - 2017-09-20 11:09 - [Desperados]

mysql-server-5.7

ruby2.3

git 1:2.7.4-0ubuntu1.1

"ruby bin/about" output:

```
/var/lib/gems/2.3.0/gems/htmlentities-4.3.1/lib/htmlentities/mappings/expanded.rb:465: warning: key "inodot" is duplicated and overwritten on line 466
```

```
sh: 1: darcs: not found
```
