Redmine - Defect #25596

when creating a new issue, custom fields for trackers don't update on tracker change

2017-04-12 23:48 - Brad Barnett

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**

Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	2.5.2

Description

I googled, and searched -- but could not find this issue in the tracker. Apologies if this is a dup.

I have 4 trackers. Each have differing custom fields. Some are required.

When I click on new issue, if a tracker is 'A', and I switch to 'B', the custom fields for 'A' still show.

Only if I click 'submit', and receive an error (because a custom field isn't filled out), will I then be presented with the correct 'new issue' page for that particular tracker.

Debian Jessie.

History

#1 - 2017-04-13 02:12 - Brad Barnett

- Status changed from New to Resolved

I didn't realise Debian's version was a beta, I've upgraded and the problem is gone.

Sorry... marked resolved.

#2 - 2017-05-12 08:40 - Toshi MARUYAMA

- Status changed from Resolved to Closed

- Resolution set to Invalid
