## Redmine - Defect #25605

# The '{{toc}}' macro is not included in the list of macros when using '{{macro\_list}}'

## **Description**

I see that the {{toc}} item is listed as a tag on the <a href="RedmineTextFormattingTextile">RedmineTextFormattingTextile</a> page. Is this different than a macro, even though it dynamically builds the list of headings on a page?

0%

Are there other tags besides {{toc}}?

Thank you for your time.
