redmine_issue_templates	0.1.5																										

History

#1 - 2017-05-20 09:26 - Roderick Gadellaa

Since this seems to be a javascript issue and that runs in a browser it's probably also useful to provide some info on my client:

Windows 10 x64, Chrome 58.0.3029.110 (64-bit)

#2 - 2017-06-12 18:44 - Toshi MARUYAMA

- Status changed from New to Needs feedback

I cannot reproduce on vanilla Redmine version:3.3.3 and CentOS 7 google-chrome-stable-59.0.3071.86-1.x86_64.

#3 - 2017-06-30 22:14 - Swizzy G

I Experienced this myself recently, the issue is likely that you have a cached version of the script, try doing a Ctrl + F5 on the page to force chrome to reload all scripts etc. from the server rather than attempt to using a locally cached version
