Description

hi,

I use the Redmine v3.3 import fucntion , the Custom field(List) value can not be set.

Seems to support only Text format ???

My inistall information

Environment:
Redmine version   3.3.3.stable.16662
Ruby version   2.2.7-p470 (2017-03-28) [x86_64-linux]
Rails version   4.2.7.1
Environment   production
Database adapter   Mysql2
SCM:
Subversion   1.9.3
Git   2.13.0

Adds a test for importing list custom fields with multiple values (#26148).

History

#1 - 2017-06-15 14:29 - Mischa The Evil

- Status changed from New to Needs feedback

- Resolution set to Cant reproduce

I can't reproduce the issue with the current amount of information. Setting custom field values for custom fields of types other than text (eg. list) during issue CSV import *is supported* and *working* (just tested it on a vanilla source:/trunk@16643 with a list type custom field).

#2 - 2017-07-10 08:36 - kay_chen kay

I use v3.3.3 is not work,can you give me a csv example ? (I test is the first export csv and then import)

#3 - 2017-07-18 16:13 - Toshi MARUYAMA

- Resolution deleted (Cant reproduce)

I can confirm Redmine 3.3 **cannot** import list custom fields.
I can confirm Redmine 3.4 **can** import list custom fields.
It seems #16549 fixed it.

#7 - 2017-07-18 17:59 - Mischa The Evil

- Status changed from Needs feedback to Confirmed

#8 - 2017-07-19 17:03 - Jean-Philippe Lang

I've committed a test for importing issues with a list custom field (r16834).
It passes on both trunk and 3.3-stable. I've also tested it manually on 3.3-stable, it works. Could someone provide more detailed information to reproduce this issue?

#9 - 2017-07-19 17:49 - Toshi MARUYAMA

Redmine 3.3 cannot import **multi** items.

```
#,Subject,cf_issue_list_01
,test1,a
,test2,"a, b"
```

- test1: a -> a
- test2: "a, b" -> ""

#10 - 2017-07-19 19:12 - Jean-Philippe Lang

- Subject changed from v3.3 cannot import list custom fields to Cannot import list custom fields with multiple values in 3.3

- Status changed from Confirmed to Closed

It was indeed implemented as part of #16549 for 3.4.
This is not a simple fix, it won't be merged into 3.3.

#11 - 2017-07-19 19:13 - Jean-Philippe Lang

- Subject changed from Cannot import list custom fields with multiple values in 3.3 to Cannot import custom fields with multiple values in 3.3

#12 - 2017-07-20 02:06 - Go MAEDA

- Resolution set to Wont fix
