

Redmine - Patch #26188

Documentation (detailed syntax help & code) additions/improvements

2017-06-18 13:52 - Mischa The Evil

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Documentation	Estimated time:	0.00 hour
Target version:	3.4.0		

Description

Following #21375#note-11, I made four additional (code) documentation changes:

1. ~~Complement external URL documentation, posted as #21375#note-11~~
2. Fix typo in detailed Japanese textile doc. (the closing angle bracket seems superfluous)
3. Add user link documentation. (detailed syntax doc; this was still missing from #4179)
4. Fix code doc indentation. (in ApplicationHelper#parse_redmine_links)
5. Add code doc for forum & news links. (in ApplicationHelper#parse_redmine_links; this was missing from #9600)

I'll attach the four remaining patches implementing these changes. The patch serial, against current source:/trunk@16676, is produced using git format-patch which makes it apply-able using "patch -p1 < 0001-...". This serial is a continuation of #21375#note-11 which includes patch 1/5 of this set, making these patches dependent on #21375#note-11 integration.

I'll also change the respective wiki pages accordingly when the patches have been committed.

Environment:

Environment:

Redmine version 3.3.3.devel@r16676
Ruby version 2.3.3-p222 (2016-11-21) [x86_64-linux]
Rails version 4.2.8
Environment production
Database adapter Mysql2

SCM:

Subversion 1.8.8
Git 1.9.1

Filesystem

Redmine plugins:

no plugin installed
