Description

As the subject states, the file download button is also displayed on repository directory entries. This obviously shouldn't be the case. This issue has been introduced with r16672 for #26035.

I'll attach a small patch fixing the issue. I've included the addition of a test assertion (for Git) showcasing the issue. I am not sure what is the best place to test this properly, so I've left multiple of such assertions out of the other adapters.

The patch, against source:/trunk@16749, is produced using git format-patch which makes it apply-able using "patch -p1 < 0001-...".
