Redmine - Defect #26699

Anonymous user should have their icon

2017-08-15 17:01 - Go MAEDA

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	UI		**Estimated time:**	0.00 hour
Target version:	3.3.6			
Resolution:	Fixed		**Affected version:**	

Description

ApplicationHelper#avatar method returns blank string instead of img tag for the anonymous user. The behavior causes disordered layout in IssuesController#show page.

This patch adds an icon for the anonymous user and fixes the broken layout.

Before:
The author of the issue is the anonymous user. But in the upper left corner of the page, the assignee's icon is displayed as if it is the author's icon because the anonymous user does not have their avatar icon.

No icon is displayed in the journal which was made by the anonymous user.

After:
New anonymous icon is displayed.

#5 - 2017-08-19 02:40 - Go MAEDA

- Target version set to 3.4.3

I think it is problematic that an assignee's icon looks like an author's icon in Redmine 3.4 when the issue's author is an anonymous user.

I suggest including this fix in 3.4.3.

#6 - 2017-10-15 13:39 - Jean-Philippe Lang

- Target version changed from 3.4.3 to 3.4.4

I think it would be better to use the default gravatar icon instead of using our own.
What do you think?

I prefer to have a special icon for anonymous user. We cannot distinguish a regular user with no Gravatar icon and anonymous user if default Gravatar icon is used for anonymous users.

I agree with Go MEADA on this. We should be able to distinguish between regular users without Gravatar and anonymous user(s).
