<b>Description</b>	
<p>It would save time and ease use to have the ability to upload multiple files at the same time (instead of 1 at a time).</p> <p>To see an example, see <a href="http://www.aceproject.com">http://www.aceproject.com</a>. In particular, you can see the ability upload multiple files in the demo:</p> <p><a href="http://www.aceproject.com/demo/server01/Tab2.asp">http://www.aceproject.com/demo/server01/Tab2.asp</a> under the Documents module on left navigation.</p> <p>(Ace Project has a French version too!)</p> <p>Any thoughts?</p> <p>Todd</p>

I checked out the latest from Trunk today. Wow! Looking good! Great work!

Comment- I see multiple file upload on Issues module now. Perfect.

Do you plan to add this multiple file upload functionality to Documents and File modules as well?

Is this something I can help with?

Hope you are enjoying the holidays,  
Todd

Good idea. It will be added in the next release.  
Thx.
