

Redmine - Defect #27330

"Name" field in the 'edit version' form has no "maxlength"

2017-10-30 16:06 - Vasili Korol

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:	4.1.0	Affected version:	3.4.3
Resolution:	Fixed		
Description			
<ol style="list-style-type: none">1. Edit a version (project settings -> versions -> "Edit" some version in the list)2. try to input a long "name" in the form (>60 characters)3. click "Save"4. A request is sent to the server; as the result, the form complains about "Name is too long (maximum is 60 characters)". <p>The <input> tag for version name should have attribute maxlength set to "60". Then the content of that field will naturally be limited to 60 characters.</p> <p>I attach a patch for this (created on trunk r17016).</p>

- *File version_form_name_maxlength_v2.patch added*

Sorry, the first patch i attached was created in the wrong folder (and thus contains wrong path to the modified file).

I now attach the corrected patch, created from the root folder of the Redmine repo.

#2 - 2017-11-28 17:59 - Toshi MARUYAMA

- *Target version set to 4.1.0*

#3 - 2018-12-16 08:07 - Jean-Philippe Lang

- *Status changed from New to Closed*

- *Assignee set to Jean-Philippe Lang*

- *Resolution set to Fixed*

Committed, thanks.
