

## Redmine - Defect #27512

### Totals on custom fields with different role contexts

2017-11-10 19:01 - Pierre de LESPINAY

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Custom fields	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.4.3
<b>Resolution:</b>			
<b>Description</b>			
<p>Totals should exclude values from custom fields for which the context does not allow the user to see.</p> <p>Example:</p> <p>We have a custom field <b>field1</b> defined that is only visible by a manager.</p> <p>screen1.png</p> <p>I'm a developer on project 1 and a manager on project 2.</p> <p>If I go in the project 1's issues I can see the <b>field1</b> in the columns, it is empty since I don't have the permission to see it, but I can see it summarized in the totals:</p> <p>screen2.png</p> <p>I didn't find any issue talking about it.</p> <p>Is it a work in progress ?</p>
