**Description**

In redmine version 3.4.x, the theme change does not work in the plugin Redmine HighlightJS syntax( http://www.redmine.org/plugins/redmine_highlightjs). To fix this in a file located on the path: /{your redmine directory}/plugins/redmine_highlightjs/lib/hooks/view_highlighted_hook.rb you need to change

setting = Setting.plugin_redmine_highlightjs [: theme]

on

setting = Setting.plugin_redmine_highlightjs ['theme']

**History**

**#1 - 2017-12-01 09:22 - Toshi MARUYAMA**

*- Category deleted (Plugin API)*

*- Status changed from New to Closed*

*- Resolution set to Invalid*

*- Affected version deleted (1.0.3)*
