Could you add test?
source:trunk/test/unit/attachment_test.rb@17111#L386

#3 - 2017-12-12 03:24 - Go MAEDA

Амир Мусин, thank you for reporting the problem and providing the patch.

But the patch needs some improvements because Ruby older than 2.4 don't have casecmp? (https://github.com/ruby/ruby/blob/v2_4_0/NEWS). The upcoming Redmine 4.0.0 supports Ruby 2.2.2 and later ([#25538](#)).

#4 - 2017-12-12 04:07 - Go MAEDA

- Related to Patch #20369: Use String#casecmp for case insensitive comparison added

#5 - 2018-11-06 04:00 - Go MAEDA

- Target version set to Candidate for next major release

We can merge this patch if Redmine migrates to Rails 6 (maybe in Redmine 5?).

We can apply the patch provided by Амир Мусин and fix the issue for Ruby ≥ 2.4 right now if we define String#casecmp? method like the following.

Even if we define the method, the problem will not be fixed under Ruby 2.3 because the fake String#casecmp? is not Unicode-aware unlike the genuine String#casecmp?. But I think it is OK because the Ruby team has ended support for 2.3 last month and probably many people who use the latest version of Redmine don't use such old Ruby.

We can delete the definition when Redmine has dropped the support for Ruby 2.3.

We can apply the patch provided by Амир Мусин and fix the issue for Ruby ≥ 2.4 right now if we define String#casecmp? method like the following.

It is not necessary now because the trunk dropped support for Ruby 2.3 ([#34142](#)).

#12 - 2020-10-22 16:30 - Go MAEDA

- File 27780.patch added

Added test code to Амир Мусин's patch.

#13 - 2020-10-23 00:04 - Go MAEDA

- Target version changed from Candidate for next major release to 4.2.0

Setting the target version to 4.2.0.

#14 - 2021-03-18 20:24 - Marius BĂLTEANU

Looks good to me.

#15 - 2021-03-21 00:29 - Go MAEDA

- Subject changed from Attachment sort doesn't work with Unicode to Case-insensitive matching fails for Unicode filenames when referring to attachments in text formatting
- Category changed from Attachments to Text formatting
- Status changed from New to Closed
- Assignee set to Go MAEDA
- Resolution set to Fixed

Committed the fix.
