

Redmine - Feature #27823

Display only the tickets that arrived on the due date on the calendar

2017-12-19 15:39 - Yuuki NARA

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%

Target version:	
Resolution:	
Description I want the function to display only the tickets that arrived on the due date on the calendar (URL and button designation) In large-scale project management, A large amount of tickets today with start date / due date are displayed on the calendar. Managers want to check the processing situation for today / near-term deadline tickets. In this case, I do not want to display the start date. That is not important.

Do you mean a feature like this?

The screenshot shows the Redmine calendar interface. At the top, there are 'Filters' and 'Options' sections. The 'Filters' section has a 'Status' dropdown set to 'open' and an 'Add filter' button. The 'Options' section has a 'Display' sub-section with checkboxes for 'Start date' and 'Due date', both of which are checked. Below the options, there are controls for 'Month' (September) and 'Year' (2018), along with 'Apply' and 'Clear' buttons. The calendar grid shows the month of September, with a yellow notification box on Thursday, September 30th, stating 'Bug #7: Issue due today'.

Thanks for your comment.

That's right.

It is good to be able to select the start date and the due date separately.
