<b>Target version:</b>	4.0.0	<b>Affected version:</b>	
<b>Resolution:</b>	Fixed		
<b>Description</b>			
<p>Image files for HDMI monitors (e.g., MacBook Pro Retina monitors) usually have "@2x" suffix in their filename, like "logo@2x.png". If you write such filenames in issues or wiki pages, Redmine misrecognizes them as email addresses and they will have useless "mailto:" link.</p> <p>Example:</p> <p>logo@2x.png</p> <p>is rendered as</p> <pre>"&lt;a href="mailto:logo@2x.png"&gt;logo@2x.png&lt;/a&gt;"</pre>

Image filename for HDPI monitors ([image@2x.jpg](#)) are misrecognized as email address (#27968).

Patch by Marius BALTEANU.

#### History

##### #1 - 2018-01-11 14:09 - Mischa The Evil

- Related to Defect #26507: "attachment:filename" link syntax would not work if the file name contains "@" added

##### #2 - 2018-04-08 10:00 - Marius BALTEANU

Go Maeda, what do you think about restoring only the following patterns: (.\*@2x\.(png|jpg|gif|jpeg))?

In this way, formats like:

- [logo@2x.png](#): it'll be restored to string
- [logo@2x.us](#): it'll link to [mailto:logo@2x.us](#)
- [logo@2x.jpg](#): it'll be restored to string
- [logo@2x.gif](#): it'll be restored to string

I think more image extensions such as "bmp" and "jpe" should be supported. Please see source:tags/3.4.5/app/helpers/application\_helper.rb#L713

```
def parse_hires_images(text, project, obj, attr, only_path, options)
  text.gsub!(/src="(^[^"]+@\dx)\.(bmp|gif|jpg|jpeg|png)"/i) do |m|
    filename, dpr = $1, $2
    m + " srcset=\"#{filename} #{dpr}\""
  end
end
```

*[...]*

Perfect, thanks for pointing me to that line, I didn't know about it.

#### #5 - 2018-04-29 09:03 - Marius BALTEANU

*- File 0001-do-not-recognize-hires-images-as-email-addresses.patch added*

Attached a patch that fixes this issue. It should be applied after the fix from #26507.

#### #6 - 2018-05-13 02:07 - Go MAEDA

*- Target version set to 4.0.0*

#### #7 - 2018-06-17 08:00 - Jean-Philippe Lang

*- Status changed from New to Closed*

*- Assignee set to Jean-Philippe Lang*

*- Resolution set to Fixed*

Patch committed, thanks Marius.
