By adding a context menu on the calendar, I think that it will be easier to adjust the schedule. This small patch adds a context menu on the calendar.

Nice improvement.

I would like to suggest to add some tests also for this feature (you can find an example in [r17037](#)).

- File `add_context_menu_in_calendar_v2.patch` added

Thank you for your feedback.

I added a test code with reference to [r17037](#).

[add_context_menu_in_calendar_v2.patch](#) is a patch with test code added.

#4 - 2018-01-26 07:37 - Mizuki ISHIKAWA

- File `add_context_menu_in_calendar_v3.patch` added

I changed the position of the test added with `add_context_menu_in_calendar_v2.patch`.

#5 - 2018-01-27 02:45 - Go MAEDA

- Target version set to 4.1.0

The patch looks good to me.

Issues list, Roadmap, and Gantt already have a context menu in the current trunk. Calendar page should have the same context menu as well.

Setting target version to 4.1.0.

#6 - 2018-01-30 09:04 - Go MAEDA

- Status changed from New to Closed
- Assignee set to Go MAEDA
- Target version changed from 4.1.0 to 4.0.0
- Resolution set to Fixed

Committed. Thank you for improving Redmine.
