

Redmine - Feature #28085

Wiki Toolbar on Full Width Custom Fields

2018-01-26 15:56 - Stephen Stuart

Target version:	
Resolution: Duplicate	
Description	
<p>Upon upgrading to version 3.4.4 we noticed we now have the ability to have custom long text fields with Full Width Layout and Text Formatting options.</p> <p>When editing an issue, fields with these options should also have the wiki toolbar displayed.</p> <p>We were able to make it appear by adding a call to <code>wikitoobar_for</code> in <code>app/views/issues/_form_custom_fields.html.erb</code> as follows:</p> <pre><% custom_field_values_full_width.each do value %> <p><%= custom_field_tag_with_label :issue, value, :required => @issue.required_attribute?(value.custom_field_id) %> <%= wikitoobar_for custom_field_tag_id :issue, value.custom_field %> </p> <% end %></pre> <p>Note that I'm not checking the Text Formatting option so all full width fields have the toolbar.</p>

I upload my patch. All (not only issue's) custom fields which `format_type` "text" and `text_formatting` "full" have the wiki toolbar in there edit forms. And you can preview at "project setting" and issue's form.

- Target version set to Candidate for next major release

Osamu Murayama, thank you for sharing the patch. Preview for full-width custom fields is especially nice.

Marius, could you review this patch? I think you are the right person to check this patch because you implemented full-width custom fields ([#21705](#)) and now working to improve preview ([#27758](#)).

Go MAEDA, I'll be happy to review this patch, but first I would like to take a call regarding [#27758](#). I think that this feature can be implemented easier after the preview tab is added to the core.

#5 - 2018-02-24 00:42 - Mischa The Evil

- File patch.patch added

I'll attach the same patch, but renamed so that it is recognized by Redmine as a patch (which will ease the review process of it).

#8 - 2018-10-28 21:56 - Marius BĂLTEANU

- Is duplicate of Feature #29712: Preview and wiki toolbar for full width custom fields added

#9 - 2018-10-28 21:57 - Marius BĂLTEANU

- Status changed from New to Closed

- Target version deleted (Candidate for next major release)

- Resolution set to Duplicate

I'm closing this in favour of [#29712](#) where we started the discussions to implement this feature.
