

Redmine - Feature #28094

Kotlin code highlight support

2018-01-29 04:02 - Bruno Medeiros

Resolution:	Fixed		
Description Kotlin usage is growing recently and I have quite a few projects in this language already, so I'd love to see my .kt files coloured in the repository view. PS.: I know we rely on CodeRay for that, so I tried to raise a feature request there as well, but it seems their email infrastructure is not working, I couldn't create my account :(

FWIW:

- see <https://github.com/rubychan/coderay/pull/213> for a Kotlin scanner implementation;
- CodeRay's own Redmine instance has been phased out AFAIK. All tracking is done via GitHub.

#4 - 2018-09-29 10:17 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Fixed

Implemented in [#24681](#) for upcoming Redmine 4.0.0.
