When adding a subtask of type "Functionality" in a given sprint this message appears.

##### #3 - 2018-02-02 07:25 - Marius BĂLTEANU

Is the same error from [#28062](#)?

##### #4 - 2018-02-02 07:25 - Shreyas Moolya

Fail to create a task (undefined method `>' for nil:NilClass)

May you check the logs in the installation folder?It seems to be a 'Scrum' plugin problem.

Yes, it's still the same problem [<http://www.redmine.org/issues/28062>] as the SCRUM plugin. It turns out I'm desperate. I have already opened two tickets for the authors and there is no answer, no interaction, nothing. I know the simplest way is to look for another similar plugin, but I urge the Redmine community to find out what's going on.

##### #6 - 2018-02-02 15:10 - Toshi MARUYAMA

- Status changed from Needs feedback to Closed

- Resolution set to Invalid

Issue tracker of this site is for only Redmine core.
