Target version:	0.8.2			
Resolution:	Fixed			

Description

A user on the #redmine channel requests clickable/linkable line numbers while repo browsing. Here is a simple patch for the views and a little css tweak.

worksforme :)

Associated revisions

Revision 2527 - 2009-02-26 10:28 - Jean-Philippe Lang

Clickable/linkable line #'s while browsing the repo or viewing a text file (#2835).

Revision 2555 - 2009-03-07 12:02 - Jean-Philippe Lang

Change to line #'s links in file/repo viewer (#2835).

History

#1 - 2009-02-26 00:16 - Mischa The Evil

+1, it seems to me that the chosen implementation has a pretty low severity in contrast to a the highly improved useability it provides...

#2 - 2009-02-26 10:28 - Jean-Philippe Lang

- Status changed from New to Resolved

- Target version set to 0.8.2

- Resolution set to Fixed

Committed in [r2527](#) with sligth changes:

- title attribute removed (hardcoded english word)
- change to scm.css removed (not related to this feature)

Thanks.

#3 - 2009-02-26 23:25 - Mischa The Evil

- File linenumbers_without_css.jpg added

- File linenumbers_with_css.jpg added

I am in the opinion that it ís related in the sense of the styling of the feature. As such: I think these selectors maybe shouldn't be declared in [source:/trunk/public/stylesheets/scm.css](#). Instead they seem to belong to the [source:/trunk/public/stylesheets/application.css](#).

See the following screenshots:

Without the CSS style-declarations (as committed)	With the CSS style-declarations (like the patch)
linenumbers_without_css.jpg	linenumbers_with_css.jpg

As you see the changes are:

- on hover -> underlining removed
- color -> instead of default link-color a more sophisticated gray-teint is used.

Though, consider it just a minor CSS-improvement... ;)

Thanks for your fast response on this issue...

#4 - 2009-03-07 12:02 - Jean-Philippe Lang

Yes, sorry. The style is committed in [r2555](#).

> Instead they seem to belong to the [source:/trunk/public/stylesheets/application.css](#)

scm.css is included when browsing a repo or viewing a file. So I don't think this style is needed in application.css
Am I wrong?

#5 - 2009-03-07 12:15 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged in 0.8-stable in [r2556](#).

#6 - 2009-10-02 15:48 - Jean-Philippe Lang

- Estimated time deleted (0.00 h)
