Redmine - Defect #28354

Wrong menu option for enabling REST API in docs, can't fix it

2018-03-16 15:33 - Fabián Rodríguez

Target version:				
Resolution:	Fixed		**Affected version:**	

Description

It seems I can't edit this page:

- http://www.redmine.org/projects/redmine/wiki/Rest_api

It indicates:

> To enable the API-style authentication, you have to check Enable REST API in Administration -> Settings -> Authentication.

It should be:

> To enable the API-style authentication, you have to check Enable REST API in Administration -> Settings -> **API**.

If there's a way to update my editing rights to fix this, I'll fix it.

Thank you!

History

#1 - 2018-03-28 09:49 - Go MAEDA

"API" tab was added in Redmine 3.2.0 (r14636). We can rewrite the page now because the oldest version currently supported is 3.2.9.

#2 - 2018-03-28 09:52 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Fixed

Fixed the page. Thank you for pointing it out.
