Show assignee avatar in Roadmap and Version (#28510).

Patch by Marius BALTEANU.

Revision 18406 - 2019-08-28 06:17 - Go MAEDA

VersionsControllerTest#test_show randomly fails (#31964, #28510).

Patch by Yuichi HARADA.

I totally agree with you that the Roadmap module is one of Redmine's most serious modules and there's a lot of 'untouched' potential in it. If you have any kind of concept/vision for it, it would be great if we could have a glance/discussion on it. Maybe in the forums or somewhere else.

...
A first improvement that is quite small and easy to add is the issue assignee gravatar.

I think it's a good improvement for the issues list. I personally would prefer to have the icon on the left side besides the issues name. On widescreen monitors the distance between the both sides of the table becomes rather huge and there's much empty space in between. Often this makes it hard for me to correlate the content on both sides with each other.

Yes, I've something in mind, but I want to make a screen to discuss on it.

#3 - 2018-04-24 06:04 - Akipii Oga

+1

I think that the feature of the roadmap should be improved further.

Because the feature of the roadmap is directly linked to the operation of agile development.

I think that it is better for Redmine to get closer to agile development.

Cool! I'm looking forward to see the results. :-)

#5 - 2019-02-07 07:22 - Go MAEDA

- File *gantt-icons.png* added

I think it is better to add an icon to the left side of the tracker name because gantt already shows gravatar icons like that.

Here is a screenshot of gantt. tiket.png is displayed when gravatar is disabled or no one is assigned to the issue.

- File *28510.patch* added

+1

As Marius says, adding Gravatar will be a simple and useful UI improvement. I have always felt that I could confirm assignee on the version page.

As for placement, I agree with Mr. Maeda's suggestion.

I made a patch to display the avatar on the left side of the tracker name, and attach it.

#8 - 2019-05-06 03:42 - Go MAEDA

- File *version-gravatar-enabled@2x.png* added

- File *version-gravatar-disabled@2x.png* added

- Assignee set to Marius BĂLTEANU

- Target version set to Candidate for next major release

Takenori TAKAKI wrote:

Looks nice. Thanks.

Marius, what do you think about this patch?

[Gravatar enabled]

No avagar icon for issues without an assignee (Issue 1 and 12).

#9 - 2019-05-06 22:47 - Marius BĂLTEANU

- File assignee_first.png added

I think we should take more feedback from users because displaying the ticket image ('icon-issue') to all unassigned issues is not a relevant information from my point of view. I already know that inside a version, all entries are issues. In gantt, it makes a little bit more sense because there the content is mixed (projects, versions, issues). The same is in the activity page where the content is mixed and the icons are used to make a visual difference.

Also, thinking at the near future and gantt, when the users will have the possibility to select the columns ([#27672](#)), maybe it'll be better to remove the avatar from issue's subject.

If you really want to show the assignee first, I think I prefer to not have any icon for unassigned issues:
assignee_first.png

But again, this is just my opinion according to my tastes and how I understand that ticket image.

Regarding the proposed patch, I think we can slightly improve the code.

Marius BALTEANU wrote:

If you really want to show the assignee first, I think I prefer to not have any icon for unassigned issues:

assignee_first.png

The design is also OK for me. I agree with your opinion that ticket icons don't provide any useful information in this context.

The patch works fine but I prefer the layout of [assignee_first.png](#) is better the layout of the latest patch because the start position of tracker names is not aligned with the patch applied.

#13 - 2019-05-21 09:15 - Takenori TAKAKI

To specify the style of the list element,

How about making the following small changes to the Mariu's patch?

```

- File 0001-Show-assignee-avatar-in-Roadmap-and-Version.patch added
- File 0002-Add-issue-css_classes-to-issue-rows.patch added

Thanks Takenori for the patch.

What do you think if we render the assignee in its own cell?

#15 - 2019-05-22 07:41 - Takenori TAKAKI

Thanks Marius for new suggestion.

Marius BALTEANU wrote:

I think that the code is cleaner and easier to improve, If we render the assignee in its own cell.
Your patches([#28510#note-14](#)) works fine in my environment.

#16 - 2019-05-22 08:09 - Go MAEDA

- Assignee changed from Go MAEDA to Marius BĂLTEANU

The patch in [#28510#note-14](#) looks nice. Thanks!

But 0002-Add-issue-css_classes-to-issue-rows.patch seems to implement another feature different from this issue. Gravatars are shown correctly, even without the patch. I think it is better to open a new issue to add CSS classes. What do you think?

#17 - 2019-05-22 08:28 - Marius BĂLTEANU

Agree. Let commit only the first patch which will fix also the error reported in [#31391](#) and I'll open a new issue later with the second patch.

#18 - 2019-05-22 10:33 - Go MAEDA

- Status changed from New to Resolved
- Target version changed from Candidate for next major release to 4.1.0

Committed the patch. Thank you all for working on this feature.

Marius, could you open a new issue for the second patch?

#19 - 2019-05-22 18:22 - Go MAEDA
