

Redmine - Defect #28795

Feature Request: Track Updated Date on Journal Entries

2018-05-16 23:18 - Tyler Harms

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Issues	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution:	
Description	
An "updated" date should be stored on the journal table along side the published date. It would be very helpful to know when a note was last updated.
