Description	
<p>Currently, you can perform administrative operations to projects on admin#projects page, except for close and reopen. You have to go to projects#show page to close/reopen the project.</p> <p>I think close/reopen button should also be on admin#projects page because close/reopen and archive/unarchive are very similar operations.</p> <p>close-reopen-button-on-projects@2x.png</p>
