

## Redmine - Feature #29286

### Add default spent time activity per role

2018-07-27 01:04 - Marius BĂLTEANU

<b>Status:</b>	Closed	<b>Start date:</b>

<b>Target version:</b>	5.1.0		
<b>Resolution:</b>	Fixed		
<b>Description</b> Currently, you can set a default spent time activity for all users, regardless their role.  I find it more useful if we add a default activity for each role (and not for each user how is requested in <a href="#">#938</a> ) because an user can have different roles per projects. Maybe in one project I'm a developer and I want to have the "Development" activity as default, and in another project I've the "Manager" role and I want to have the "Project Management" activity as default.  If a role doesn't have a default activity, the global should be set as default if exists, otherwise blank.  Any feedback is welcome.

I am using redmine 3.4.6. on bitnami, I apply the patch in the directory htdoc but once I redemare the service, access to the menu role hangs, I need this feature and thank you

#8 - 2018-12-05 20:44 - Gerardo Schild

I am using redmine 3.4.6 on bitnami, although the patch did not work, I applied the changes manually and I had the following error, which should be corrected for the patch

\app\models\time\_entry\_activity.rb

I get the error of: undefined function punk which solves it with .sort.map(&:default\_time\_entry\_activity\_id)

Thank you!

- File 0001-Option-to-set-default-time-entry-activity-per-role-r21737.patch added

I think this feature very useful.

I have made changes so that I can apply the patch to the latest code.

Main Changes:

- Delete TimeEntryActivity.allowed\_activities and replace with existing TimeEntryActivity.available\_activities
- Integrate the code for selecting the existing default activity(  
[https://github.com/redmine/redmine/blob/04e5ae033bf78d7cfd55dd1b905df79c2a913f83/app/models/time\\_entry.rb#L110-L114](https://github.com/redmine/redmine/blob/04e5ae033bf78d7cfd55dd1b905df79c2a913f83/app/models/time_entry.rb#L110-L114) ) into TimeEntryActivity.default\_activity\_id
- Add test for TimeEntryActivity.default\_activity\_id
- The change in  
<https://github.com/redmine/redmine/commit/2fdbcd35dd8cc2f6b98340825a57afd24ff89670#diff-d94d27c8c3a5137bab78b034894d9feba4abaac9144c3177daaa4bc1eba6f02aR95> no longer sets the initial user, so the role for selecting the default activity is now taken from User.current (in the patch, it was self.user, so it was no longer working).
- Member.find\_or\_new method is gone, replaced with Member.find\_or\_initialize\_by.

#10 - 2022-08-02 04:19 - Go MAEDA

- Target version changed from Candidate for next major release to 5.1.0

Setting the target version to 5.1.0.

#11 - 2022-08-09 04:51 - Go MAEDA

- Status changed from New to Closed

- Assignee set to Go MAEDA

- Resolution set to Fixed

Committed the patch. Thank you all for your contribution.

#12 - 2023-04-16 16:21 - Go MAEDA

- Related to Feature #14983: Default Activity per Issue Tracker added

#13 - 2023-05-06 01:06 - Go MAEDA

- Related to Feature #573: Spend time and Activity enhancement added
