

## Redmine - Patch #29391

### Show version status in Roadmap and Version pages

2018-08-15 21:18 - Marius BALTEANU

<b>Status:</b> Closed	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b> Go MAEDA	<b>% Done:</b> 0%
<b>Category:</b> Roadmap	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> 4.1.0	
<b>Description</b>	
Currently, it is quite hidden and hard to see the version status and because of this, most of our versions remain Open (completed).	
Roadmap: index.png	
Version show: show.png	
Any feedback is welcome, especially on the statuses badge color.

#### Associated revisions

##### Revision 18052 - 2019-04-09 16:45 - Go MAEDA

Move styles for count and private to a new class named 'badge' (#29391).

Patch by Marius BALTEANU.

##### Revision 18053 - 2019-04-09 16:48 - Go MAEDA

Show version status as badge in roadmap#index and roadmap#show (#29391).

Patch by Marius BALTEANU.

#### History

##### #1 - 2018-08-15 21:19 - Marius BALTEANU

- Description updated

##### #2 - 2018-08-16 14:54 - Go MAEDA

I am in favor of the idea to show the current status of versions. As Marius wrote, it is not easy to know the current status of versions.

But I don't like to use class names such as "light-blue" and "red". Theme developers may define a different appearance for the element. And future versions of Redmine switch the color.

You're right, I don't know what was in my head when I made mixed classes. I'll update the patch.

Update the patches for the current trunk.

The "Private" badge from issue page is rendered inside a h3 element, the versions status is rendered outside the h3 and because of that, the styles differ. We should render also the version status badge inside the "h" element or we should apply some style from h element directly to .badge class in order to have the same "look and feel"?

**#14 - 2018-12-17 17:40 - Bernhard Rohloff**

I also agree that things should be handled the same way on every view. As the private badge is also a badge and has nothing to do with the heading at all, my favorite approach would be to take it out of the heading, give the classes "badge" and "private" and align it to the heading by setting the display property of the h3 element to inline-block. That's understandable, clean, and introduces badges as an official design element so that plugins like redmine\_tags can rely on.

Since the status "OPEN" is a very normal status for versions, I think that showing the status "OPEN" is not necessary and showing "CLOSED" and "LOCKED" is enough. I am anxious that the Roadmap page will be filled with many "OPEN" and users may feel those as distractions.

What do you think if we change the badge styles to something less prominent for users?

Personally, I prefer to show all statuses because it's easier for users to scan visually when there are multiple versions with mixed statuses: "Closed, Closed, Open, Open, Locked" vs "Closed, Closed, , , Locked".

Agree, but I'll do it in another ticket.

**#19 - 2019-04-09 16:49 - Go MAEDA**

- Status changed from New to Closed
- Assignee set to Go MAEDA

Committed the patch. Thank you for improving Redmine.

**#20 - 2019-08-30 02:20 - Go MAEDA**

- Category changed from UI to Roadmap

**#21 - 2020-04-05 09:53 - Go MAEDA**

- Related to Feature #33254: Show open/closed badge on issue page added
