Description				
Sometimes when	working on large(r) wiki-pages	(especially when using large tables) it c	ould be very helpfull if there was a bu	utton

Sometimes when working on large(r) wiki-pages (especially when using large tables) it could be very helpfull if there was a button available (e.g. on the bottom of the edit-window) to switch the wrapping inside the edit-window from on (default) to off (which is currently not possible).

This could be seen implemented in a way by DokuWiki for example...
