Description

The attached patch adds an issue(123) macro which has options similar to the link_to_issue helper method, giving users maximum control over the level of detail when linking to issues.

```
{{issue(123)}}                           -- Issue #123: Enhance macro capabilities
{{issue(123, project=true)}}             -- Andromeda - Issue #123:Enhance macro capabilities
{{issue(123, tracker=false)}}            -- #123: Enhance macro capabilities
{{issue(123, subject=false, project=true)}} -- Andromeda - Issue #123
```
