

Redmine - Defect #29746

Unexpected results with enumeration formatting in Textile

2018-10-08 16:48 - Holger Just

Status: New	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Text formatting	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution:	
Description Consider the following textile example: <pre>#{color:red} is a _shorthand syntax_ used to generate valid HTML, #{color:blue} is *easy* to read and *easy* to write, # can generate complex pages, #{color:green} including headers, quotes, lists, tables, and figures.</pre> According to https://txstyle.org/ , this is supposed to render as follows:  However, In Redmine, it is rendered as follows:  It seems that our Textile library only support formatting for the whole enumeration and ignores formatting on individual elements.

History

#1 - 2018-10-09 09:13 - Go MAEDA

The feature to style list items was implemented in Redcloth 4.2. We have to update RedCloth to support the syntax.
