

Redmine - Defect #29881

Issue in visibility level

2018-10-30 16:18 - zam kp

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Permissions and roles	Estimated time:	0.00 hour
Target version:		Affected version:	3.2.3
Resolution:			
Description			
<p>We have created new Role "ADMIN" and added 2 users. We have created another role name "SUPPORT" and added 4 users to that role. I want to restrict the access of the role in such a way that users in the role SUPPORT can see "only issues created or assigned to them". How is it possible? Please help me</p>
