Redmine - Defect #29886

Redmine doesn't know how to count up to 5

2018-10-31 14:35 - Cédric Berger

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Roadmap		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	3.4.6

Description

I was looking at what issues are left until version 4.0 is released.
On the roadmap page of https://www.redmine.org, it says 5 issues.
When we click on the "5 issues" links, suddenly there is only 4 issues left.

I was doing a demo to convince a client of mine to use redmine, and
because of that mismatch, the first impression wasn't great ;)

By the way, could someone tell me when to expect 4.0.0?

Thanks,
Cédric

There is one private issue added to 4.0.0. In addition, all previous versions of Redmine contain a defect where the counts from the roadmap page do not take into consideration issues visibility. The defect was already fixed for the upcoming 4.0.0 (by r17051).

You should not use redmine.org for demo because the instance is quite old (2014) and in the mean time, a lot of improvements/features/fixes were been delivered.

> By the way, could someone tell me when to expect 4.0.0?

Not really, I hope soon.
