

Redmine - Defect #29911

[Email Notification] _involved in_ clarification

2018-11-05 11:17 - nicolas felix

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Email notifications	Estimated time: 0.00 hour
Target version:	Affected version: 3.4.2
Resolution: Duplicate	

Description

Hi Everybody,

First of all, I want to apologize if I am wrong about that feature.

Some of our *redmine* users have set up their *mail notification* settings with the option **Only for things I watch or I'm involved in**.

Once logs correctly set up, I can identify which (and when) mails are sent or not.

What we are thinking about this option is once we have been involved in a task (I mean *assigned to*) we will then be notified for any changes (even if we are not *watcher*).

But it appears a mail is sent to user only when he/she is assigned to.

If this is the expected behavior, is there any configuration enabling the behavior I described ?

Redmine version: 3.4.2 stable.

Thanks you for any feedback.

Regards,
Nicolas

History

#1 - 2018-11-19 22:36 - Anders Thomsen

Involved in means that mails are sent to the author of the issue and the person who is currently assigned to the issue.

There are some plugins out there that adds assigned users to the watch list as well.

- Status changed from New to Resolved

Ok, thanks Anders for clarification.

I will look if any plugin enable us to send mails do any people involved in the ticket, meaning here *watchers*, *author* and *anybody assigned at any given time*
