

## Redmine - Feature #300

### Filter on custom fields (issues)

2007-03-28 04:27 - Pavol Murin

<b>Description</b> It is currently not possible to filter issues based on values of custom fields. It would be very nice, if all custom fields could be shown in the drop-down list and it would be possible to use them in the same way as common fields.  Regards, muro	

### History

When adding a custom field it would be useful to specify if you want it to appear in the dropdown to be filterable as you may not want some to be.

Also the full text search feature should also check these custom fields.

#### #2 - 2007-04-17 06:59 - Jean-Philippe Lang

Done (committed in rev 447).

A new attribute was added on custom fields for issues: "Used as a filter" (false by default). Once checked, the field is available in the filter drop-down list.

#### #3 - 2007-04-27 11:56 - Sébastien Kirche

At this time, the last browsable revision of the rubyforge repository frontend is the 446... :(

#### #4 - 2007-04-27 12:04 - Jean-Philippe Lang

There may be a problem with rubyforge svn browser. Last revision for redmine is 483 at this time.

#### #5 - 2007-05-02 12:51 - Sébastien Kirche

Unfortunately my corporate proxy does not let me use svn. I have made a svn checkout from my home computer and I got it now. Wonderful.

BTW, I am currently trying to set up a redmine for my company. You made a great tool !
