

## Redmine - Patch #30026

### macros and textile at pdf export in custom field

2018-11-24 22:58 - Dirk Rudolph

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	PDF export	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Candidate for next major release		
<b>Description</b>			
Redmine in version 3.4.6 don't fully support textile and macros in pdf export/print when custom fields be used formatted text. I did some changes in the issue_pdf_helper.rb to do that.			

#### History

##### #1 - 2018-11-25 01:04 - Dirk Rudolph

- File issues\_pdf\_helper-redmine-3.4.6.rb.patch added

##### #2 - 2018-11-25 01:09 - Dirk Rudolph

- File issues\_pdf\_helper-redmine-3.4.6\_2sec\_version.rb added

little optimizations

##### #3 - 2018-11-25 05:30 - Go MAEDA

- File table-breaks-layout.pdf added

Thank you for the patch. But I noticed the following points:

- The values should be textilized only when the text\_formatting attribute for the custom field is true. The patch always textilizes the value
- Inserting a table breaks the layout. Please see the attached pdf ([table-breaks-layout.pdf](#)). Blank lines are inserted after the table

##### #4 - 2018-11-25 10:30 - Dirk Rudolph

- The values should be textilized only when the text\_formatting attribute for the custom field is true. The patch always textilizes the value

No, the used function show\_value() seems to check that. I tried out.

- Inserting a table breaks the layout. Please see the attached pdf ([table-breaks-layout.pdf](#)). Blank lines are inserted after the table

Yes is true. The table cell becomes bigger because the height is calculated over html code in the background. I think it's better to have a big cell and the content fits into, instead a cell that's to small. But I will try to optimize.

##### #5 - 2018-11-25 14:21 - Dirk Rudolph

- File issues\_pdf\_helper.rb-redmine-3.4.6\_3rd.patch added

Some optimizations for the layout.

For the cell height calculation, some html-strings will remove.

##### #6 - 2018-11-25 16:40 - Dirk Rudolph

- File issues\_pdf\_helper.rb-redmine-3.4.6\_4th.patch added

Further optimizations for issues list ...

##### #7 - 2019-04-29 13:22 - Go MAEDA

- Target version set to Candidate for next major release
