Description	
Hello,	
is it possible to use ONE Wiki, FAQ, Documents, Files, Forum and News in more then one project? In the way that not every project hast its own module of the named. This would help much to spread the same informations over different projects, even when the users of those projects dont have access to the other projects.

History

#1 - 2009-03-26 04:13 - Eric Davis

- Subject changed from *zentral Wiki, FAQ, Documents, etc. for different Projects* to *Central Wiki, FAQ, Documents, etc. for different Projects*

#2 - 2009-04-11 09:13 - Paul Rivier

I suggest to design some rules of inheritance and accumulation in projects trees.
