##### #3 - 2019-03-05 07:16 - Go MAEDA

The error described in #30963#note-1 occurs while processing app/models/repository/git.rb line 3 ('η') or lib/redmine/search.rb line 63 ('□').

The following change will fix the error.

#### #4 - 2019-03-05 10:46 - Go MAEDA

- Target version changed from Candidate for next major release to 4.1.0

I found that the error I wrote in #30963#note-1 depends on the version of Ruby. You will see the error if you run rake test:coverage in Ruby 2.5 or 2.6. The error is reproducible with not only the latest SimpleCov 0.16 but also 0.14.1 (the version specified in the current Gemfile).

I confirmed that SimpleCov 0.16.1 passes all tests and generates the coverage report without any error in Ruby 2.3 and 2.4.

In conclusion, we can update SimpleCov to 0.16.1 safely. The problem I reported in #30963#note-1 is another problem and should be handled separately. I have opened a new issue #30967 for the problem.
