Redmine - Defect #31092

svn repo create command not working

2019-03-24 16:56 - Uuganbayar Battulga

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	SCM		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	4.0.2

Description
After upgrading from RedHine from 3.4.4 to 4.0.2, the command to create a repository for a new project does not work. The repositiry of the existing projects is normal. Screenshots are attached.

History

#1 - 2019-03-27 03:07 - Uuganbayar Battulga

All checked below, all ok:
- check if you have link to Remine.pm in /usr/lib64/perl5/
- make sure you have Enable WS for repository management option enabled
- make sure API key string is equal to one in reposman.rb command line, regenerate it
- make sure that Repositories Tab in Settings reports that you have Subversion enabled and version is shown
- create new project, in settings under Modules Tab tick Repository and save
- then execute reposman.rb

#2 - 2019-03-28 09:01 - Mizuki ISHIKAWA

The problem could not be reproduced in my environment.

- Redmine 4.0.2
- MySQL
- Ruby 2.6.0

Would you be able to confirm the following?

- Execute command after adding https:// to --redmine-host url
- Check the log by tail log/production.log to see if the request by reposman.rb is coming.
  Example:

```
Started GET "/sys/projects.json?key="
Processing by SysController#projects as JSON
  Parameters: {"key"=>""}
Completed 200 OK
```

#3 - 2019-04-05 08:02 - Go MAEDA

- Status changed from New to Needs feedback

#4 - 2019-04-15 04:26 - Uuganbayar Battulga

1. ruby /var/www/html/redmine/extra/svn/reposman.rb --redmine https://redmine.statebank.mn --svn-dir /var/svn --owner apache --group root --url https://redmine.statebank.mn/svn/ --verbose --command='/usr/bin/svnadmin create' --key=YNMIO6e6ZAscnqVtzbp0 > /home/uka/redmine_reposman.log

1. cat /home/uka/redmine_reposman.log
   querying Redmine for active projects with repository module enabled...
   Unable to connect to https://redmine.statebank.mn/sys/: SSL_connect returned=1 errno=0 state=error: certificate verify failed (unable to get local issuer certificate)

#5 - 2021-03-28 17:37 - Go MAEDA

- Status changed from Needs feedback to Closed

- Resolution set to Invalid
