

Redmine - Patch #31169

Wiki syntax help for document image pasting and drag/drop embedding

2019-04-08 10:02 - Jens Krämer

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Documentation	Estimated time:	0.00 hour
Target version:	4.1.0		
Description			
These are two very convenient but non-obvious features, therefore we think it is a good idea to mention them in the detailed wiki syntax help.			
The attached patch, extracted from Planio , adds these two lines to the help files:			
<pre>Images in your computer's clipboard can be pasted directly using Ctrl-v or Command-v. Image files can be dragged onto the text area in order to be uploaded and embedded.</pre>
