<b>Description</b>			
<p>These are two very convenient but non-obvious features, therefore we think it is a good idea to mention them in the detailed wiki syntax help.</p> <p>The attached patch, extracted from <a href="#">Planio</a> , adds these two lines to the help files:</p> <pre>&lt;li&gt;Images in your computer's clipboard can be pasted directly using Ctrl-v or Command-v.&lt;/li&gt; &lt;li&gt;Image files can be dragged onto the text area in order to be uploaded and embedded.&lt;/li&gt;</pre>
