Description

Probably after [r18056](#), a triangle mark for dropdowns is not displayed in Microsoft browsers. So you cannot distinguish between text boxes and dropdowns.

The screenshot shows the Redmine web interface. At the top, there is a navigation bar with 'Home', 'My page', 'Projects', 'Administration', and 'Help'. On the right, it says 'Logged in as maeda' with links for 'My account' and 'Sign out'. Below the navigation bar is a search box and a dropdown menu labeled 'Jump to a project...'. A pink arrow points to the dropdown arrow, with the text 'Only the project selector has triangle mark' written in pink. Below this is the 'Settings' section with tabs for 'General', 'Display', 'Authentication', 'API', 'Projects', 'Users', 'Issue tracking', and 'Time tracking'. The 'Issue tracking' tab is selected. In the 'Issue tracking' settings, there are several options: 'Allow cross-project issue relations' (checkbox), 'Link issues on copy' (dropdown set to 'Ask'), 'Allow cross-project subtasks' (dropdown set to 'With project tree'), 'Close duplicate issues automatically' (checkbox checked), and 'Allow issue assignment to groups' (checkbox). A pink arrow points to the 'With project tree' dropdown, with the text 'No triangle mark' written in pink. On the right side of the settings, there is an 'Administration' sidebar with links for 'Projects', 'Users', 'Groups', 'Roles and permissions', 'Trackers', 'Issue statuses', 'Workflow', 'Custom fields', 'Enumerations', 'Settings', and 'LDAP authentication'.
