<b>Description</b> Hello,  the Gantt diagram is a very useful tool. Nevertheless i have to resize the gantt chart everytime because the text / ticket structure is complex sometimes.  I know there was no option to resize the text in the past. This is better now :) <a href="https://www.redmine.org/issues/20481">https://www.redmine.org/issues/20481</a>  I have to resize the Gantt every time. Could you a) resize the text side on the letter count ? (maybe max 120 letters..) <b>b) save the resize parameter like i set it last time (this would be my favourite solution)</b>  Thank You  related to:
